

# GIVETOLIVE

CHANGE THE WORLD ONE PERSON AT A TIME

## GIVETOLIVE SAFETY POLICY

At GIVETOLIVE, we are committed to preventing and reducing the risk of injury and illness by ensuring our events and activities are safe for all participants and volunteers.

The personal safety and health of each participant, volunteer, contractor, event organizer, and board member of GIVETOLIVE is of primary importance and must always be a priority. We cannot fulfill our mission to inspire people to live happy and healthy lives through generosity, fitness, and achievement of the extraordinary without this commitment.

**Everyone** is responsible for safety and for maintaining an attitude toward injury and illness prevention and to the continual improvement of safety initiatives. Only through such a cooperative effort can a safety program be established and preserved in the best interest of all persons involved.

The **Board of Directors** are responsible for maintaining a policy of safety in all of its decision-making and for fostering a culture of safety throughout the organization in everything it sets out to achieve.

**Event Organizers** are responsible to conduct risk assessments for our events and to plan for and communicate safe practices to all participants and volunteers with a goal of having zero safety accidents or incidents.

**Volunteers** and other event contractors are responsible for implementing the safety objectives and initiatives as planned and communicated for our events and activities.

Every **Participant** is responsible for his or her own safety and to have regard for the safety of other participants. We all have each other's backs.

Board of Directors, by its Chair
